

Spring/Summer 2015

Welcome to a joyous spring/summer, masterfully infused with beauty and the convergence of light and colour.

A season where freedom overturns rigid limits,

Where ideas triumph,

Fantasy prevails,

And delicacy and refinement reign supreme

Where volume is unfurled

And thrillingly juxtaposed silhouettes are created anew.

Linton Tweeds have been designing and producing Tweeds for Chanel and other prestigious international fashion houses for over 100 years.

Their latest collection was presented *re Vision* in Paris and has just arrived on our shores, ready for viewing. Contact us today to arrange a suitable time! We'd love to hear from you!

You're sure to turn heads in these jackets. And maybe the focus won't just be on the horses ...

Be inspired!!

I'm sure you'll agree that every "Chanel" jacket would be an outright winner at any Racing Carnival, not to mention the touch of glamour it would bring to your old boring business suit. The latest designs have just arrived, fresh from the looms in Carlisle and are available in Australia right now!
